

FOR IMMEDIATE RELEASE

Kodocare Pharmacy to Continue to Offer Vaccines and Booster Shots

Hoping to limit the spread of germs and allow residents to safely participate in activities they enjoy

JOLIET, Ill., Jan. 18, 2022 ----- Kodocare pharmacy will continue to offer both COVID and Flu vaccinations in addition to booster shots in light of the new vaccine requirement in Chicago and other major cities. Located at 221 Springfield Ave, those in need of a vaccination can walk in or register online for an appointment. The vaccinations are free of charge, and available for anyone ages 5 years and older. Each patient should bring their current vaccination card, or state identification and insurance card if applicable.

“With many cities such as New York and Chicago starting to require vaccine checks before entry for participating in common every day activities. The best way to make sure you are safe and able to participate in the activities you enjoy is by getting vaccinated,” said Chad Kodiak, RPh, PharmD and CEO of Kodocare.

The city of Chicago announced earlier this month that to dine-in, work out, or attend live events one must show proof of vaccination. After the announcement Kodocare saw an uptick in patients receiving the vaccine and realized the need was still present. They opened the schedule and made it so vaccines are available every day from 9:15 a.m. till 4:15 p.m. with a pharmacist on standby to answer any questions, one might have prior to getting the vaccine.

“The only way to keep ourselves and others safe is by getting the vaccinated, not just for COVID, but for the flu and any other vaccines that a patient may be overdue for. With one simple phone call we can answer all the questions a patient may have and schedule a time for them to come in” stated Chad Kodiak.

About Kodocare Pharmacy

KODOCARE has been pharmacist owned and operated since 1969. Chad Kodiak, RPh, PharmD. is the company’s second-generation, CEO. KODOCARE balances care and attentive service with cutting edge Pharmaceutical practices and technology. They continue to expand and grow but do it thoughtfully to maintain their mission.
